

exceptions for the subsistence harvest of migratory birds by indigenous inhabitants of identified subsistence zones in Alaska.

The intent of the amendments is to enable effective actions to be taken to improve migratory bird conservation, and to cause no significant increases in the take of species of migratory birds relative to their continental population sizes. Paragraph 4(b)(ii) of Article II states:

Indigenous inhabitants of the State of Alaska shall be afforded an effective and meaningful role in the conservation of

migratory birds including the development and implementation of regulations affecting the non-wasteful taking of migratory birds and the collection of their eggs, by participating on relevant management bodies.

This notice initiates action to establish management bodies required by the treaty amendments. The options document being prepared will identify, among other things, the number of management bodies needed for effective and efficient management, how the management bodies will be organized, and their roles and responsibilities. The options document will be prepared for

review and public comment by the Native Migratory Bird Working Group, the Alaska Department of Fish and Game, and the U.S. Fish and Wildlife Service. Availability of a draft document for review and a list of public meetings to gather public comment will be announced in the **Federal Register**.

Meetings
